Disconnect Outdoor Hoses Before It Freezes

Disconnect any garden hose you may still have attached to an outside faucet. Freezing temperatures can cause the hose to create a water leak that can go unattended for days, or even cause pipes in your walls to burst.

Hamel GIVING TREE

AT HAMEL VILLAGE HALL

The Hamel Giving Tree was started by a group of Hamel citizens wanting to give back to those in need. If you are a family who can afford to give back to those families in need,

PLEASE DROP OFF WRAPPED TOYS AT THE GIVING TREE.

Gift tags and protective bags are provided for your convenience!

If you would prefer to provide unwrapped toys, designated drop boxes are located at Hamel Village Hall and Hamel Dollar General, and our wonderful volunteers can take it from there!

Happy Holidays!
